THE WRITING AND RATIFICATION OF THE U.S. CONSTITUTION:  
A BIBLIOGRAPHY

By Russell R. Wheeler  
Federal Judicial Center

1986

This bibliography was produced in furtherance of the Center's statutory mission to develop and conduct programs of continuing education and training for personnel of the federal judicial system. The selection and presentation of materials reflect the judgment of the author. Publication by the Center signifies that this work is regarded as responsible and valuable. It should be emphasized, however, that on matters of policy the Center speaks only through its Board.

## INTRODUCTION

Organization. This is a single bibliography in two versions for two purposes. The Abbreviated Bibliography (pp. 1-3) provides a brief catalog of some major sources that a reader might consult to gain a basic understanding of the events and ideas of the Constitution's writing and ratification. The Extended Bibliography presents a more extensive list of works, arranged according to the topical sections shown in the Table of Contents.

Purpose and scope. This bibliography was prepared at the suggestion of the Board of the Federal Judicial Center, which recognized that federal judges, and other federal court personnel, would likely be called upon for various kinds of advice and participation in the bicentennial celebration of the American Constitution and that a bibliography would be helpful to that end. Consequently, this is not a bibliography on American constitutional law, cataloging materials that judges typically encounter in pleadings, briefs, and decisional law in constitutional cases. Nor is it a bibliography on American constitutional history or on the role of the Supreme Court in the American political process, although sections I and X of the Extended Bibliography contain some materials on those broader topics.

This bibliography's focus is on the events and ideas of two hundred years ago. That focus does not reflect the narrow view that all the important questions were settled in 1776 and 1787, but rather the view that the events and arguments of the period of the American founding provide important lessons that tend to be overlooked, and that the bicentennial provides a valuable opportunity to look specially at them. Indeed, it is an opportunity to take up the question posed in The Federalist no. 1:

whether societies of men are really capable or not of establishing good government from reflection and choice, or whether they are forever destined to depend for their political constitutions on accident and force.

Information on bicentennial activities and developments.

Anyone interested in the Constitution's creation--be that interest sparked by the bicentennial or not--will want to stay abreast of the events and publications marking the event. The newsletter of the Commission on the Bicentennial of the United States Constitution is sent to all federal judges, but those not receiving it may do so by writing:

Commission on the Bicentennial  
of the United States Constitution

Washington, DC 20503

In addition, this Constitution, a quarterly bicentennial chronicle of Project '87, publishes articles on the Constitution's creation and evolution and news items on related current events, as well as chronologies, documents, and other materials. There is a nominal subscription price. To subscribe, write to:

## ABBREVIATED BIBLIOGRAPHY

The Philadelphia Convention of 1787

Numerous books and articles describe the participants and the work of the Constitutional Convention, give something of the causes that brought it about and discuss what happened in its wake, and analyze at least cursorily the ideas and issues of these events. Especially for its length (35 pages), none is better than:

Walter Berns, *The Writing of the Constitution of the United States* (American Enterprise Institute 1985) (Berns explains the background of events and ideas leading to the convention, analyzes the "political theory [and] political fact" that motivated the delegates, provides a chronology of the debate on key issues, and notes the resolution of the convention's most important unfinished business).

Three good, popularly oriented, book-length studies are:

Catherine Drinker Bowen, *Miracle at Philadelphia: The Story of the Constitutional Convention, May to September 1787* (Little, Brown 1986) (first published 1966).

Christopher Collier & James Collier, *Decision in Philadelphia: The Constitutional Convention of 1787* (Random House/Reader's Digest Press 1986).

Richard B. Morris, *Witnesses at the Creation: Hamilton, Madison, Jay and the Constitution* (Holt, Rinehart & Winston 1985) (looks at events through the eyes of The Federalist's authors).

What Brought the Convention About?

Three good sources dealing primarily with the events and conditions leading to the 1787 convention are below, their relative foci revealed by their titles.

Andrew C. McLaughlin, *The Confederation and the Constitution, 1783-1789* (Crowell-Collier 1962) (first published 1905) (this work is currently out of print).

Robert Middlekauff, *The Glorious Cause: The American Revolution, 1763-1789* (Oxford University Press 1982).

Jack N. Rakove, The Beginnings of National Politics: An Interpretive History of the Continental Congress (Johns Hopkins University Press 1982) (first published 1979).

### The Ideas of the Constitution

The framers' understanding of political behavior and of the purposes of government are referenced in the works above (albeit, in some, obliquely at best). Both articles below provide more substantial explications, with reference to the political theorists of the eighteenth century and earlier times on whom the framers relied.

Martin Diamond, Democracy and The Federalist: A Reconsideration of the Framers' Intent, 53 American Political Science Review 52 (1959), reprinted in the Greene and Jones anthologies cited infra under Anthologies.

Martin Diamond, The Federalist, in Leo Strauss & Joseph Cropsey (eds.), The History of Political Philosophy (University of Chicago Press 2d ed. 1981) (first published 1963), also reprinted in the Wood anthology cited infra under Anthologies.

Another way to understand the political theories of the founding period is to see the Constitution through the eyes of its opponents. A very helpful treatment to that end is:

Herbert J. Storing, What the Anti-Federalists Were for: The Political Thought of the Opponents of the Constitution: Volume I of the Complete Anti-Federalist (University of Chicago Press 1981).

### The Bill of Rights

The best one-volume treatment of the evolution and ratification of the first ten amendments to the Constitution is Robert A. Rutland, The Birth of the Bill of Rights, 1776-1791 (New England University Press rev. ed. 1983).

### Original Texts

The Federalist--Hamilton, Madison, and Jay's classic exposition of the Constitution--is available in numerous editions. Any good bookstore is likely to have the paperback editions of Clinton Rossiter (New American Library 1962) and/or Garry Wills (Bantam Classic 1982).

For anti-federalist writings, the most convenient introductory collection is Herbert J. Storing (ed.), *The Anti-Federalist: Writings by the Opponents of the Constitution* (abridged by Murray Dry) (University of Chicago Press 1985).

### Anthologies

Several anthologies of scholarly articles cover the topics above and in the process illuminate the diverse and competing academic perspectives on the creation of the Constitution. All carry one or the other of the Diamond essays cited above, except Levy's, which focuses somewhat more heavily than the others do on the controversy over the Beard thesis (i.e., to what degree was the Constitution written primarily to serve particular economic interests?). The most comprehensive yet manageable of the four is probably Wood's.

Jack P. Greene (comp.), *The Reinterpretation of the American Revolution, 1763-1789* (Greenwood Press 1979) (first published 1968).

Robert F. Jones (ed.), *The Formation of the Constitution* (Krieger 1978).

Leonard W. Levy (ed.), *Essays on the Making of the Constitution* (Oxford University Press 1969) (2d ed. forthcoming 1987).

Gordon S. Wood (ed.), *The Confederation and the Constitution: The Critical Issues* (University Press of America 1979).

## EXTENDED BIBLIOGRAPHY

Caveats and Guides

1. This bibliography is "extended" only in comparison to the preceding pages. It presents only a small portion of the literature on the founding period, with an emphasis on more recent works, from which one can work back to earlier items.

2. The sections (see the Table of Contents at p. iii) identify the main subjects of the works placed in them. For clarification, citations include subtitles as well as titles, and annotations for some especially important works or to explain works whose titles and subtitles are unhelpful or even misleading.

3. Within those sections and subsections that warrant it, works to which one might profitably turn first are set out first; those that one might wish to consult for further information are identified by the heading Other Works.

4. Each entry shows the author, title, and journal (or for books, the publisher), the date of most recent publication, and the date of first publication where different.

5. Books that are out of print are so indicated; most items in the bibliography, out of print or not, should be available in any adequate library. Some works now out of print may be republished for the bicentennial.

Charles C. Tansill (ed.), Documents Illustrative of the Formation of the Union of the American States (S. Judd Publishers 1984) (published by GPO in 1927).

### Debates in the 1787 Convention

Max Farrand, The Records of the Federal Convention of 1787 (4 vols.) (Yale University Press; first three volumes published 1911; republished with fourth volume in 1937; fifth volume forthcoming May 1987). Volumes I and II present participants' records of convention debates, most importantly Madison's "Notes." Volume III contains convention and postconvention correspondence and speeches of the framers. Volume IV presents corrections to the first three volumes, the text of the Constitution cross-referenced to entries in the four volumes, and an index. Volume V will present additional sources that have come to light since 1937.

James Madison, Notes of Debates in the Federal Convention of 1787 (introduction by Adrienne Koch) (Ohio University Press 1985).

August 1986

Saul K. Padover, *To Secure These Blessings* (Washington Square Press 1970) (first published 1962) (out of print) (convention debates arranged according to provisions of the Constitution).

### Debates in the State Ratification Conventions

Jonathan Elliot (ed.), *The Debates in the Several State Conventions on the Adoption of the Federal Constitution, as Recommended by the Framers' Convention at Philadelphia in 1787* (5 vols.) (Burt Franklin 2d ed. 1974) (first published 1836) (Elliot has long been the standard source, although it will give way to the item immediately below).

John P. Kaminski & Gaspare Saladino (eds.), *Documentary History of the Ratification of the Constitution and the Bill of Rights* (Wisconsin State Historical Society; in progress, some volumes now available).

### Pamphlets, Newspaper Essays

#### General

In addition to the collections cited below, those cited above under General Collections of Documents and Other Writings, supra p. 7, contain public and private writings and state documents.

#### The Federalist

The Federalist consists of eighty-five essays by Alexander Hamilton, James Madison, and John Jay, published serially, mainly in the New York press, and then in book form in the spring of 1788. See the items noted preliminarily at The Political Theory of The Federalist, infra p. 26, for information on authorship and analysis of The Federalist.

However these papers served their primary goal--securing New York's ratification of the Constitution--their influence on succeeding generations' understanding of the theory and objectives of the Constitution has been immense. Of the paperback editions currently available, Cooke and Fairfield provide more probing analyses in their introductions, but Rossiter's appears to be the most accessible.

Jacob E. Cooke (ed.), *The Federalist* (Wesleyan University Press 1982).

Roy P. Fairfield (ed.), *The Federalist Papers* (Johns Hopkins University Press 1981).

Clinton Rossiter (ed.), *The Federalist Papers* (New American Library 1961).

Garry Wills (ed.), *The Federalist* (Bantam Classic 1982) (out of print).

Some readers may, for reasons referenced in the title, be interested in Jean Stearns, *The Federalist Without Tears, A Selection of the Federalist Papers Written in Contemporary Language for the 20th Century Reader* (University Press of America 1977).

### Anti-Federalist Writings

There is no The Anti-Federalist to correspond to The Federalist. Several collections of anti-federalist writings are:

Herbert J. Storing (ed.), *The Anti-Federalist* (University of Chicago Press 1985) (drawn from the next-cited work).

### Other Works

Herbert J. Storing & Murray Dry (eds.), *The Complete Anti-Federalist* (7 vols.) (University of Chicago Press 1982).

William Allen & Gordon Lloyd (eds.), *The Essential Antifederalist* (University Press of America 1986).

Cecelia Kenyon (ed.), *The Antifederalists* (Bobbs-Merrill 1966) (out of print).

### III. WHAT HAPPENED IN 1787 AND IN THE YEARS BEFORE AND AFTER, AND WHY?

The literature that describes and/or analyzes the events of and surrounding 1787 can be categorized and sorted in many ways, none of which is entirely satisfactory because little of the literature is single-purpose. The basic distinctions in this bibliography are between works that primarily analyze or describe:

- events (this section, which is further divided into general treatments and treatments of more specific time periods);
- participants (section IV);
- ideas (section V); and
- more specialized topics (sections VI-VIII).

#### General Treatments

(See also relevant portions of the works cited under American Constitutional History and Development, supra p. 5.)

#### Anthologies

Each anthology below provides basic material on the conditions leading to the Constitution, explains something of the theory underlying it, and introduces the various academic perspectives, such as the debates over Charles Beard's 1913 thesis on the economic origins of the Constitution. Levy's work focuses more heavily than the others on the Beard thesis; the others each include one or the other of the Diamond essays referenced in the Abbreviated Bibliography at p. 2 and in The Political Theory of The Federalist, infra p. 26. The most comprehensive yet manageable of the four is probably Wood's.

Jack P. Greene (comp.), The Reinterpretation of the American Revolution, 1763-1789 (Greenwood Press 1979) (first published 1968).

Robert F. Jones (ed.), The Formation of the Constitution (Krieger 1978).

August 1986

Gordon S. Wood (ed.), *The Confederation and the Constitution: The Critical Issues* (University Press of America 1979).

### Texts

McLaughlin's one-volume history, eighty years old and predating even the Beard thesis, is a still-solid, felicitously written, and judicious interpretation of the end of the Revolution, government under the Articles, and the writing and ratification of the Constitution. Middlekauff's single but lengthy volume provides a broader sweep and contains an extensive bibliography. The narratives on the Constitution's writing and ratification, infra p. 13, provide some comment on the events leading up to and the aftermath of the Philadelphia Convention.

## The Philadelphia Convention and the Ratification Process

### Narratives

Articles. Berns's brief (35 pages) pamphlet provides as good an account, for its length, as one will find. He explains the background of events and ideas that led to the convention, analyzes the considerations of "political theory [and] political fact" that motivated the delegates, provides a chronology of the debate on key issues, and notes the resolution of the convention's unfinished business. Roche, as his title suggests, tends to downplay the impact of theory and principle in the writing of the Constitution. Storing, focusing mainly on the so-called "Great Compromise," hardly ignores the strategic machinations but gives more emphasis to the framers' views of basic principles of free government as vital ingredients in shaping the Constitution.

Books. The books below fall more in the popular than the scholarly vein. They present biographical sketches of the framers (or at least of the leading ones), describe the tenor of the times, and provide blow-by-blow accounts of the debates. On the ratification, see infra p. 17 under The Anti-Federalists.

#### IV. WHAT KIND OF PEOPLE WROTE, RATIFIED, OR OPPOSED THE CONSTITUTION?

Labels, and the literature to be labelled, can be especially misleading when one tries to understand who the participants in the founding were, and why they acted as they did. For example, the "federalist" label was appropriated by those who advocated basically a national government, forcing those who favored a confederacy to call themselves "anti-federalists." Also, "the founders" is used below somewhat narrowly to designate only those who took a leading role in writing the Constitution in the convention. Moreover, the literature itself is misleading to the degree it suggests that to understand why those of the founding acted as they did, it is enough to read the accounts of their backgrounds and their social and economic situation. One must also try to understand what they thought and why; the literature cited in section V is a necessary complement to that in sections III and IV.

##### The Anti-Federalists

In some ways, controversies over the role of the anti-federalists, and over the Beard thesis (see infra p. 18), are of the same piece. The Beard thesis, however, has a distinct economic focus, which sets it apart from analysis of opposition to the Constitution generally.

## Biographies of Participants in the Constitution's Creation

Abridged editions of Hamilton's, Madison's, and Wilson's works are cited below, but this section does not reference the comprehensive editions of the papers of leading eighteenth century figures. For most of the prominent framers, projects have been under way for at least several years at various universities to produce complete and authoritative collections of their writings, supplanting earlier editions.

### Biographical Collections

Most of the books cited at p. 13 contain brief biographical sketches of at least the prominent founders. Thumbnail sketches of most of them are also in Robert G. Ferris & James H. Charlton, *The Signers of the Constitution* (Interpretive Publications 1986), and, with religious overtones, M. E. Bradford, *A Worthy Company: Brief Lives of the Framers of the United States Constitution* (Plymouth Rock Foundation 1982).

Insightful treatments of the founding era activities and thought of Hamilton, Jefferson, Lee, Madison, Marshall, Mason, and Wilson are in Ralph A. Rossum & Gary L. McDowell (eds.), *The American Founding: Politics, Statesmanship, and the Constitution* (Kennikat Press 1981).

## V. THE IDEAS OF THE CONSTITUTION

After the anthologies cited immediately below, this section draws a somewhat narrow line between works analyzing the theoretical underpinnings of the Constitution generally and works that focus more precisely on the most important subject of that category, the political theory of Publius, the author of The Federalist. (The assumption here, over which reasonable people disagree, is that both the Constitution and The Federalist are characterized by internal consistency, at least on fundamental questions.)

All three volumes are characterized by their steadfast analysis of the eighteenth century meaning of words used in the Constitution and debates about it, especially as to national economic power and the role of the Supreme Court. ### The Political Theory of The Federalist

Those who plan to read deeply into The Federalist should know about The Federalist Concordance, edited by Thomas S. Engeman, Edward J. Erler & Thomas B. Hofeller (Wesleyan University Press 1980) (out of print). Analyses of whether Hamilton or Madison wrote certain of the papers is in Douglass Adair, The Authorship of the Disputed Federalist Papers, 1 William & Mary Quarterly 97 (part I) and 235 (part II) (1944), reprinted in Douglass Adair, Fame and the Founding Fathers (W. W. Norton 1974). Adair's conclusions are generally borne out by the quantitative analysis reported in Frederick Mosteller & David L. Wallace, Inference and Disputed Authorship: The Federalist (Addison-Wesley 1964) (out of print).

Some readers may also want to refer to James G. Wilson, The Most Sacred Text: The Supreme Court's Use of The Federalist Papers, 1985 Brigham Young University Law Review 65, for the analysis of the topic referenced in its title.

Either one of the first two following essays provides a rich, and to many a fresh, explanation of the political goals of the Constitution--an extended, commercial, representative democracy with auxiliary checks--and of the theoretical under-

standing that motivated its leading authors and that Hamilton and Madison explained in The Federalist.

#### Contemporary Adjudication and the Intentions of the Framers

There is a great deal of legal academic literature on determining what kind of deference, if any, courts owe to the intentions of the Constitution's framers. That literature is basically beyond the scope of this bibliography: Many of the works (not unexpectedly, given their assumptions) pay little attention to the writing of the Constitution. A sampling, though, of some of the leading articles is below.

Popular interest in this subject was spurred by various comments of Attorney General Meese and Justice Brennan in 1985. The U.C. Davis Law Review has published one each of their speeches, and one by Justice Stevens, as Addresses--Construing the Constitution, 19 U.C. Davis Law Review 2 (1985).

## CHRONOLOGY OF THE FOUNDING PERIOD

- July 1776 Continental Congress declares colonies' independence from Great Britain.
- Articles of Confederation presented to the Congress for consideration.
- November 1777 Congress presents the Articles to the states; unanimous ratification required.
- March 1781 Maryland ratifies, thus putting Articles into effect.
- September 1783 Britain signs Articles of Peace.
- March 1785 Washington is host to commissioners from Virginia and Maryland at Mount Vernon to resolve jurisdictional problems over Potomac River navigational rights.
- September 1786 Five of the thirteen states invited by Virginia attend the Annapolis Convention on interstate commercial problems. They resolve to ask all the states to convene in Philadelphia to consider changes necessary "to render the constitution of the Federal Government adequate to the exigencies of the Union."
- February 1787 Shays's Rebellion in Massachusetts quelled.
- Congress opines favorably on the expediency of the Philadelphia Convention, called for in Annapolis, but only to revise the Articles of Confederation.
- May 1787 Philadelphia Convention achieves a quorum and begins deliberations; twelve of the thirteen states are represented.
- July 1787 Congress adopts the Northwest Ordinance, banning slavery and specifying procedures for establishing republican government in western territories ceded by the states.

- September 1787 Delegates vote approval of the Constitution, sign it, and send it to Congress. Congress resolves to submit the Constitution for ratification as prescribed in Article VII of the document.
- October 1787 The Federalist no. 1 published in New York to urge ratification there.
- December 1787 Delaware becomes the first state to ratify.
- June 1788 New Hampshire becomes the ninth state to ratify, the technical minimum required for adoption.  
Virginia ratifies.
- July 1788 New York ratifies.  
Congress prepares for the change in government.
- February 1789 Presidential electors, elected in January, choose Washington as the first president.
- March 1789 Congress convenes under the Constitution.
- April 1789 Washington inaugurated as president.
- September 1789 Federal Judiciary Act passed.  
Congress submits twelve amendments to the states in response to calls by state ratification convention for a bill of rights.
- February 1790 Supreme Court convenes for initial session.
- December 1791 Virginia ratifies ten of the twelve amendments submitted, making the Bill of Rights part of the Constitution.

## THE FEDERAL JUDICIAL CENTER

The Federal Judicial Center is the research, development, and training arm of the federal judicial system. It was established by Congress in 1967 (28 U.S.C. §§ 620-629), on the recommendation of the Judicial Conference of the United States.

By statute, the Chief Justice of the United States is chairman of the Center's Board, which also includes the Director of the Administrative Office of the United States Courts and six judges elected by the Judicial Conference.

The Center's **Continuing Education and Training Division** provides educational programs and services for all third branch personnel. These include orientation seminars, regional workshops, on-site training for support personnel, and tuition support.

The **Division of Special Educational Services** is responsible for the production of educational audio and video media, educational publications, and special seminars and workshops, including programs on sentencing.

The **Research Division** undertakes empirical and exploratory research on federal judicial processes, court management, and sentencing and its consequences, usually at the request of the Judicial Conference and its committees, the courts themselves, or other groups in the federal court system.

The **Innovations and Systems Development Division** designs and tests new technologies, especially computer systems, that are useful for case management and court administration. The division also contributes to the training required for the successful implementation of technology in the courts.

The **Division of Inter-Judicial Affairs and Information Services** prepares a monthly bulletin for personnel of the federal judicial system, coordinates revision and production of the *Bench Book for United States District Court Judges*, and maintains liaison with state and foreign judges and related judicial administration organizations. The Center's library, which specializes in judicial administration materials, is located within this division.
